

HARO Side Stair Trim

(only suitable for straight staircases)

Please follow the installation instructions.

Floor selection (only parquet floors possible)

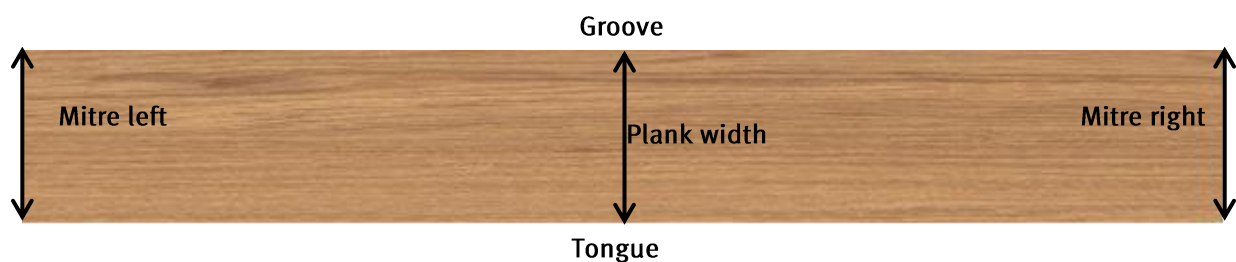

Pick a parquet floor for your stair trim from our range.

ID No.*	Product Name*
_____	_____

1. Step tread and riser

We can also mitre cut your parquet floors on request to the required length for the step tread and riser. Otherwise we recommend leaving the step tread and riser in the longer length and having it adjusted by the customer. The plank width remains unchanged. You have to cut this yourself in accordance with the width of the step tread and riser.

(Please note that one plank generally does not suffice for the complete step tread)

Step tread 533 185

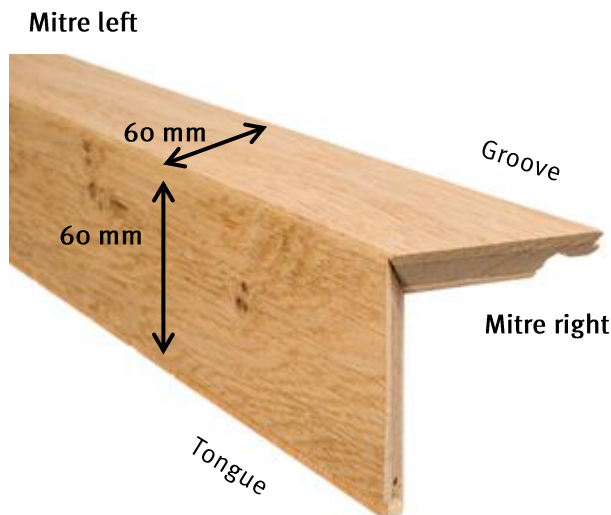

Width	corresponds to plank width		
Length*	_____ cm		
Mitre*	left <input type="checkbox"/> quantity_____	right <input type="checkbox"/> quantity_____	both sides <input type="checkbox"/> quantity_____
